

ENTREPRENEURS

Small business is a key driver of our economy. Data from Industry Canada shows small businesses in Alberta contribute 32 per cent to the overall provincial GDP while in Lethbridge, small and medium sized businesses employ more than 4,000 people.

At Economic Development Lethbridge, we are committed to bringing new enterprise and talent to the city, and to helping existing businesses and entrepreneurs expand and grow. Through the Teconnect centre for entrepreneurship and innovation and along with our partners in the Regional Innovation Network of Southern Alberta (RINSA), we offer a range of programs, workshops and services designed to help you take your business to the next level.

Explore this section to learn more about the entrepreneurs who are located at the centre!

API Labs

API Labs Inc. is a Canadian-owned, Alberta-based company looking to create a vertically integrated poppy industry in Canada.

Autoenter Inc.

Autoenter is incubating the idea of creating a virtual online premium used car dealership as well as incorporating aggregated data from dealer websites to provide a single portal that would give complete visibility of every new and used vehicle for sale by dealers in a given locale.

Avail Maxim

Avail Maxim is a new-age, virtual accounting firm that is changing the way people view business accounting.

FailProof Technology Inc.

Canada's premier Cloud Solution Provider, building smart solutions for business enterprises to drive business growth.

InSitu Media Corporation

Automated 3D product insertion via social media.

KJ Concepts

KJ Concepts, a design and drafting company, brings 3D scanning technology to southern Alberta. The introduction of this innovation streamlines the initial stages of the design process resulting in a high level of accuracy and a decrease in costs, time and production.

Output Media Ltd.

Output is a video post-production studio that uses technology to help production companies, advertising agencies and brands make compelling video content.

Ralco Ventures

Ralco is developing specific cryptocurrency applications and tools to ensure the accounting of these digital assets will be made easier for accountants, finance professionals and businesses participating in this new digital economy.

Snap Projections

Easy to use financial & retirement planning software for advisors and planners with reports your clients actually understand, created in minutes.

Triple H Project Management

Triple H Project Management Inc. provides business and project consulting services for a range of industries with specific expertise in project management.

Tecconnect Alumni

From health sciences to amphibious equipment, Tecconnect has been home to some pretty amazing start-up companies that have either changed direction, been acquired or simply moved out so they can continue to grow.
